WELCOME TO FUNKY STUDIO

**A stimulating
space that
goes with your
inspiration**

—03

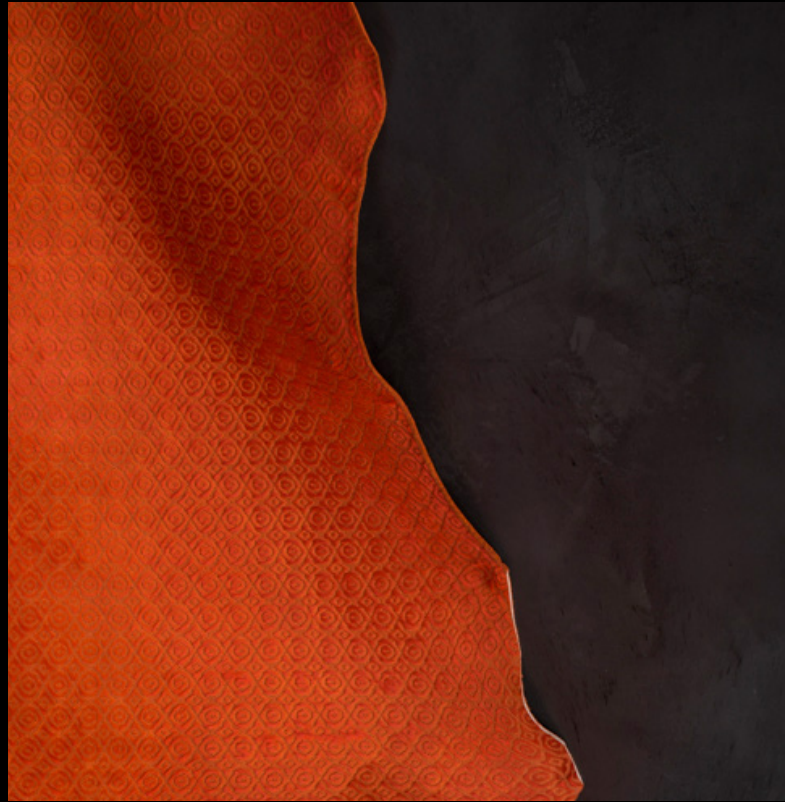

Yes. Of course magic really exists.

Small moments when everything fits together and the designs seem to come to you without any effort at all.

But you know it as well as we do: 90% of the inspiration is work.

This is what Funky Studio is all about: it's an omnifunctional space designed to provide you with a series of incentives, resources, select references and working atmospheres in which both your designs and your inspiration can really excel.

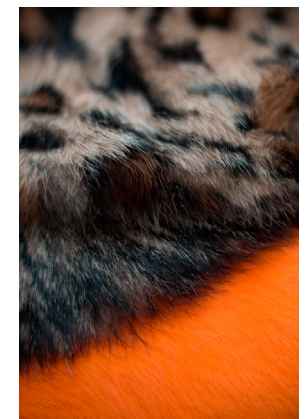

WORK WITH THE LATEST TRENDS IN LEATHER. EVEN THOSE THAT DON'T EXIST YET.

Sometimes you know exactly what you want. Other times, the key is to let yourself be amazed. At Funky Studio you will find a meticulous selection of textures, colours and materials that make up a complete, surprising range, which is constantly being updated.

You decide whether you need advice or you prefer to work on your own. We have optimized the organisation of our references to make the selection process easier for you so that your work turns into a creative process that you can really enjoy.

Above all, don't put limits on yourself. If you have a certain material or a style in mind that you can't find in our selection, tell us: it is highly likely that we will be able to develop it especially for you.

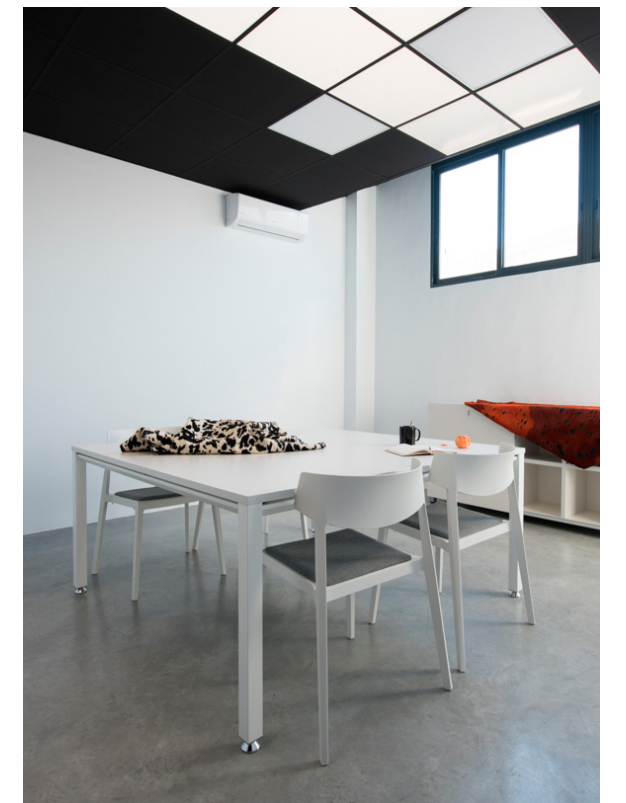

Nobody has enough time. That is why we take our selection of references very seriously. The objective is that you can find up to 80% of the materials that you are looking for in just one day's work. A range that is rounded off by also giving you access to linings and leathers for the inside of your designs.

Working spaces (workroom, offices, shooting point, etc.) are also assimilated in this constant search for efficiency and you are free to invite your co-workers to use them: the best way to make the most of your schedule.

An omnifunctional space that multiplies efficiency.

FUNKY TEAM

—09

An idea based on experience.

We needed 30 years of experience to come up with Funky Studio. Coming up with a place like this one means being very familiar with how the sector works in general and with the creation, selection and purchasing processes carried out by the professionals involved in it.

The team has made this project possible, it is led by Juan Candela and it has complementary perspectives that enable us to give designers, model makers and manufacturers an ideal work experience.

**MEET
INSPI—
RATION
AND DO
IT IN THE
—RIGHT
PLACE.**

We work with the most extensive range of articles.

—10

When working in Funky Studio, we want you to spend more time finding interesting possibilities than actually looking for them. That is why we are continually updating our selection of materials (leathers, microfibers, fabrics, synthetics, glitter, fantasy and metallic materials) and we give you in-depth information about each of our suppliers.

CHOOSE WHEN TO
EXPERIENCE FUNKY STUDIO.

—011

Talk to us and arrange a
day to come and work.

You can also ask us any
questions you have about
the space and tell us about
any specific needs that you
might have.

Juan de Herrera, 9
Parque Industrial de
torrellano, 03203
Elche. Alicante. Spain.
